TO THE BEAUTIFIERS OF THE COMPLEXION.

SURPRISING EFFICACY. My Fair Divine Soap, and Nymph Soap, composed of an extraordinary discovery of surprising efficacy for restoring the skin soft and fair, as well as imparting a delicate roseate hue to the complexion. As a creator and conservator of that most distinguishing charm of female loveliness, a transparent fair skin, Jules Haue's Nymph Soap, or Beau Divine de Venus, may be said to exert an almost magical influence. Composed for the most part of oriental balsamic plants, to the utter exclusion of all mineral admixture, it is distinguished medically, for its extremely bland, purifying and soothing action on the skin; and by acting on the pores and minute secretory vessels, expelling all impurities from the surface, allays every tendency to inflammation, and, by this method alone, effectually dissipates all redness, tan, pimples, freckles, sunburn, and other unsightly cutaneous visitations, so inimical to female loveliness. Its use will change a most bilious complexion into one of radiant whiteness; cleanse the neck, hands, and arms; it bestows a delicacy and fairness, which its continued use will happily preserve. With every appearance of healthful bloom to the most advanced period of life.

Those already decayed it prevents from becoming worse—it also fastens such as are becoming loose, and by perseverance it will render the foulest teeth delicately white, and make the breath delicately sweet.

Highly Important to Persons using Spectacles.
THIS simple but very useful optical instrument becomes in the hands of a scientific Optician, the means of not only giving clear vision to a defective eye, but also to improve and preserve the same to the oldest possible age, by a proper application of its glasses. A fine flint glass, free of flaws, should always be applied with such a degree of convexity or concavity, precisely as the defect of vision requires, not more nor less, or else the result will be a faster decline of vision, and by the accommodation of the eye to an improper focus, will finally terminate in a total inability of reading, writing or sewing, in the prime of life.

Persons not acquainted with optical principles, should never select spectacles without the advice of a skillful Optician, as the eye, this great masterpiece of divine mechanism, is a delicate organ, requiring their greatest attention. The subscriber has taken a room in Vose's Washington House, at the head of Beach road, where he may be consulted for a short time. All persons desirous of obtaining superior glasses, fitted exactly to their eyes upon the first examination, will do well to call. His selection of Spectacles and Eye-glasses is very large, and his mode of applying glasses to suit the eye, will convince the visitor at once that he has trusted his most valuable organ into those hands to whom the same of right belongs. He also recommends his Terrestrial Telescopes, which are achromatic, as first-rate instruments. The opportunity offered by the subscriber is rare, and it is hoped will be embraced by the citizens and the visitors of this place at once. F. MARKENS, Optician from New York. Rooms at Vose's Washington House, up stairs. July 13 6m.

A MAN WITH A WOODEN LEG.

(Continued.)
At last a thought struck me of a method to get my leg and save my credit, for I saw plainly that my leg must be had immediately, or else the cat would be out of the bag. I thought of Beau Babbleton, the foppish fellow mentioned above, as a person on whom I might with some confidence, play the trick of fathoming my lost limb.

I had got myself into bad humor, with his sisters, and two or three scores of their snipping acquaintances, by means of his foppish and the unreasonableness of my timber, and I determined now to be revenged on him, by means of the same marvellous members.

The plan was this, to send by a trusty servant, a note to Mr. Clackabout, requesting the leg in the name of Beau Babbleton, by which means I should get my limb again without being suspected, and Beau might account for the superiority of ship bones to his own animal economy as well as he was able.

The plan succeeded to admiration, and much better than I looked for. I had the luck to see a paper passing under my window, in the morning, and him I sent off with the note. You may judge the surprise and astonishment of Mr. and Mrs. Clackabout and his two sisters, as they sat at breakfast, when they received the following—

"Mr. Babbleton's compliments to Mr. Clackabout, and requests he will send him his leg by the bearer; it will be found in the cellar. Mr. B. hopes to be excused for stepping through Mr. C's cellar door on last evening."

Nobody knew what to make of this strange epistle at first. One thought a hoax, but on sending into the cellar to examine, the leg was found sure enough, and the breach in the cellar door, where the mis step had been made. And then what a staring and wonderment there was among the Clackabouts, at the discovery of Beau Babbleton's artifice. Who would have thought it? they all exclaimed—a tip-top-dandy, a buck of the first water, an irresistible creature among the ladies; and after all this wooden leg—oh, monstrous.

However, after a pretty close scrutiny of this unfortunate limb, it was delivered to the porter, who passed for Beau Babbleton's servant, as no questions were asked, and my stray appendage being made. Now was Richard himself again, but Beau Babbleton absolutely beside himself. Mr. Clackabout wished to meet him the same forenoon, and wish him joy of the recovery of his leg! Beau replied that his leg had never been ill.

"Not ill, to be sure," said Mr. Clackabout, but terribly out of joint."

"Out of joint! out of joint, sir! What do you mean?"

"Oh, I don't mean that it was hurt in breaking through the cellar door, indeed, I believe it was sent back in good order; and truly, you walk very well without it. One would never suspect you."

"Never suspect me! I don't understand you sir; pray, tell me what you suspect me of?"

"Of getting the boot on the wrong foot, for you need not think to mistify me. What I brave it out in this fashion, when you left it in my cellar on Saturday night, and I sent it to you this morning?"

"Really, Mr. Clackabout, you talk like a man who has lost his senses."

"Really Mr. Babbleton, your effrontery is too much to bear. You will make a lame piece of it, and get yourself into a hobble—I advise you to show a little more understanding—and with these punning allusions to Beau's fancied infirmity, Mr. Clackabout walked off.

Miss Titafely, whom Beau had engaged to marry (being his seventeenth flame) was so shocked on hearing the intelligence, that she called for harlequin and would never see him again.

The match was broken off, for nobody could ever persuade her that the story was incorrect, as she knew him to be guilty of false whiskers, and a broad and whalebone waist, and a horse of the same color. She was obliged to put up with the black horse, and never, during the rest of her life, did she see a person with a white hair without a sigh.

A learned Clergyman in Maine was accosted in the following manner, by an illiterate preacher who despised education: "Sir, you have been to college, I suppose?"

"Yes, sir," was the reply. "I am thankful," replied the former, "that the Lord has opened my mouth without any learning."

"A similar even," replied the latter, "took place in Balaam's time, but such things are of rare occurrence at the present day."

A Jay or two ago, a Quaker and a hot-headed youth were quarrelling in the street. The broad-brimmed Friend kept his temper most equable, which seemed to increase the anger of the other. "Fellow," said the latter in a passion, "I don't know a bigger fool than you," finishing the expression with an oath. "Stop, friend!" replied the Quaker, "thou forgettest thyself."

Hyer's Pills.
The American Improved Hygienic Vegetable Medicine.
SAFE, CHEAP AND EFFECTIVE.
This medicine makes no pretensions to miraculous powers, the raising of the dead, or to immense and astounding sales daily and hourly, after the most approved method of the times; but bases all its claims upon plain common sense principles, as a simple aid to nature in restoring the human system to its proper tone and action; when by carelessness or unfavorable circumstances it has become deranged or debilitated, and asks simply a faithful trial as a test of its curative properties. During the last twenty years it has worked its way into extensive use, really upon its own merits, by commendation from individual to individual, not having been advertised for more than twelve years till within the past few months—save occasionally in a journal of which the present proprietor is Editor. The increasing demand, however, has measurably compelled greater attention to its business, and agencies are now being established throughout the country.
A faithful trial of a half dollar or dollar package is almost certain to secure use in every family where it is introduced, where medicine is needed. The undersigned has used it in his own family for more than fifteen years—has knowledge of its approved use in many others, (for periods varying from months to fifteen or sixteen years,) as their only medicine, and knows it to be valuable in most of the complaints incident to the human system. But a long or extravagant commendation is not designed or needed here. Ten thousand mere assertions in its favor will not make it valuable, or satisfy reasonable persons without a trial; for the proof, after all, must lie in the use of it. Try it, then. Read, try, and then judge.

Bogle's Hyperion Fluid; Or Vegetable Hair Compositon.
THE subscriber has been induced to bring this article before the public, at the request of his numerous customers, among whom are physicians and citizens of the first respectability, who have adopted its use in their families, and wish others to participate in its advantages.
The Hyperion is composed of vegetable ingredients, the secret of compounding and blending which is known solely to the subscriber. It is an article in which a cleansing and purifying wash is beautifully blended with a most delicate, silky and glossy moisture never before attained, yet free of animal grease or essential oils. It clears the pores of the skin, causes a healthy action in the blood vessels, nerves, &c., which feed the hair, thereby preventing **BALDNESS AND GREY HAIR**. It entirely frees the skin from Scurf, Dandruff, and other cutaneous diseases, disposes the hair to curl, and changes the hardest hair into the most soft, glossy, and healthy state, also imparts to it a darker color, and the free use of it, both on the skin and hair, in a most healthy and luxuriant state until the latest period of life.
Ladies will find the Hyperion a great addition to the toilet, both on account of its delicate and agreeable perfume, and the great facilities it affords in dressing the hair, which, when moist with the fluid, can be dressed in any required form, so as to preserve its place, whether plain or in curls. When used on children's heads, it lays the foundation of a good head of hair.

DR. BANNING'S PATENT LACE!
An immediate Relief to Incipient Consumption, the Bronchitis of Public Speakers, Palpitation of the heart, Dyspepsia, Spinal Weakness, Piles, Protrusion, and Diseases of Women, without Medicines.
THIS instrument has been examined by Drs. Mott, Rodgers, Francis, and Griscom of New York, the faculty of Pittsburgh, Hartford, New Haven and Middletown, and has obtained for itself their favorable testimony. The following will show what kind of testimony might be produced in many cases:
Middletown, June, 25th, 1843.

Dr. Boardman,
Sir—In answer to your inquiry respecting my case, I will merely say, that I have been sick since I strained my breast and loins in May, 1839, from that time continued to grow worse, when in the fall of '39, I abandoned business, and have not done any thing since. I suppose from all I could learn about my case—frequently raising blood, coughing very hard and expectorating profusely, deriving no benefit from my physicians, and all medicines recommended to me, that my case was hopeless. Last winter my brother told me he had heard a good account of Dr. Banning's Lace in such cases, and was anxious that I should try it; accordingly I procured one from you, and since I began to wear it, my breathing, which was very short and laborious, has become easy and natural; the pain and fluttering or palpitation of the heart has subsided; cough and expectoration greatly lessened, my limbs which were exceedingly painful have become useful, so that I can walk comfortably. I am able to shave myself with comfort, which for many years I have not been able to do. The piles, which have troubled me for nine years, are nearly eradicated. I work some in the garden, and am able to ride 4 miles at once with pleasure and benefit. Yours, &c. **WM. R. BOARDMAN.**
Dr. G. M. Boardman,
Middletown, June 25, 1843.

Dr. Boardman,
Dear Sir—In answer to your inquiries respecting the effect of Dr. Banning's Lace in the case of my wife, I will state that for twenty years past, she has been afflicted with a complication of complaints to which females are subject. She has tried all the physicians and all the medicines recommended for such complaints, without regard to expense, and found only temporary relief. Her most distressing complaints, palpitation of the heart, oppression and a sense of great weight at the pit of the stomach, prolapsus of the womb, &c., were believed after wearing the lace two hours, and she has continued to improve daily. With this view of the case I cannot use language strong enough to convey my approval of the instrument. aug. 29th.

Doctor Boardman, proprietor of Bannings celebrated Patent Body Brace, for this state, has taken rooms at No. 8, Broad street, where he may be consulted, free of charge. He is enabled to treat, successfully, cases of Rheumatism, Neuralgia, Headaches, Deafness, loss of Voice, Bronchitis, Weakness and curvatures of the spine, and chronic diseases generally. He is enabled to refer to numerous cases in Providence, and this town. aug 28

TO THE LADIES IN PARTICULAR.
MY DEPHILATORY POWDER has been found highly beneficial and of great use to ladies who have been afflicted with superfluous hair, principally when its growth has been confined to the upper lip and side of the face, giving a masculine turn to the whole features. When used with proper care, and according to the directions, it will be found to be a great addition to the toilet, as the use of any sharp instrument is entirely avoided, and the hair is removed in five or ten minutes after its application.
This composition is infallible, and warranted to remove superfluous hair. After numerous trials, I have received certificates of success which cannot be contested. MOTHER'S RELIEF.
IT is now about ten years since this medicine has been introduced to the public, and it stands unrivalled in its effects, bearing the test of the severe scrutiny of all classes, both friendly and unfriendly. It is but for one purpose—for the use of Mothers who have to pass through a sea of affliction in giving birth to mankind, not to be described. It is to you we make an appeal. It is for your especial and general good that you should make use of one bottle of the **MOTHER'S RELIEF** before confinement. Then you can approach the parturient chamber without feeling as if you were going to the chamber of death. You may rest assured it will still all fertile and nervous affection. Its smooths and shields from irritation and by its peculiar properties it destroys the cause of hemorrhage or inflammation that so often attend and follow the hour of parturition. It causes sweet and natural rest, and at last facilitates the birth, so that Mothers have not to pass through such excruciating pain and distress. The Mother's Relief may be depended upon in all cases of threatening abortion where it is possible to be prevented in cases of Spasms, &c., causing frequent alarm, from two to three doses will give immediate relief.
As the subject is one that cannot with propriety be fully discussed in this public manner, we invite all who feel interested to call on our agents (most of the respectable Druggists in the United States,) or on the manufacturer, and they will be furnished with a pamphlet in which they will find all the facts to form a correct opinion of its merits, and also the opinions of many physicians of eminence, and of persons who have become acquainted with its beneficial effects.
CAUTION TO PURCHASERS.—Ask for **BANNING'S Mother's Relief**. None is genuine unless our signature is found within the wreath of the direction that is pasted on the bottle, signed with our own hand, and over the neck of the bottle is a facsimile of our own hand writing also. Miracle.
ON the 4th of August, in the year 1843, a singular scene occurred in the Royal Scientific Institution of France. The aged, white headed President, his head bare, his arms outstretched, his face radiant with smiles, (for science was triumphant,) and his voice with gratulatory tone, delivered the following report:
"We are astounded at this singular preparation. Where indeed will science stop! Here we have a preparation made in the form of a beautiful piece of soap, which we know by actual practice, to cure every cutaneous eruption, every disfigurement of, and even discolored skin! Where will its magic and singular power cease? The Negro, the Creole, the Yellow Race of the East, and the Red Man of the far West, are alike under the influence of its extraordinary powers of clearing yellow or discolored skin, and making it white and beautiful, and of changing the color of dark, or black, or brown skin." (Here several persons were brought forward by the President, who had used it, in proof of his assertion.)
There are probably few persons of intelligence, who, after reading the above, will doubt the qualities of **JONES' ITALIAN CHEMICAL SOAP**, in curing Pimples, Blotches, Sore Rheum, Scoury, Erysipelas, Sore Heads, Old Sores, Beard and Barber's Itch, Chapped and Tender Flesh, Freckles, Tan, Sunburn, and changing dark sunburn or yellow skin to a pure, clear white, as smooth and soft as an Infant's, and in fact every kind of eruption and disfigurement. Read these certificates:
[From the N. O. Sentinel, Oct., 1841.]
One of our subscribers, Mr. H. Leonard, informs us that he has been cured of old, scaly Salt Rheum, of eighteen years standing, on his head, fingers and hands, by a cake of an article much advertised lately—we speak of Jones' Italian Chemical Soap. He also informs us that he has tried its effects on his female slave Rose, much marked with sun spots, and he found in two weeks her skin much clearer and whiter.
James Eltham, a painter in Jersey City, was cured of carbuncles and pimples, which he was afflicted with for many years, by part of a cake of Jones' Italian Chemical Soap.
Persons in purchasing this must always ask for Jones' Italian Chemical Soap; and perhaps, as many who have been cheated with counterfeits, will be too much discouraged to try the genuine, we say to such, try this once—you will not regret it; but always see that the name of T. JONES is on the wrapper. For sale in Newport by **R. J. TAYLOR**. June 10-4m

READER! READER!
If you are afflicted with Bronchitis, Asthma, Obstructed or common Coughs and Colds, Spitting of Blood, Bleeding of the Lungs, Whooping cough, croup, difficulty of breathing, sore throat, hoarseness, first stages of consumption, and all other Pulmonary or Lung Complaints, try
DOCT. EMANUEL'S BALSAMIC LUNG AND COUGH JELLY.
THE materials of this Jelly are purely vegetable and balsamic, and are the invention of an eminent physician, from whom the proprietor has purchased the recipe. It is certainly worth its weight in gold, but is put at a price to be within the reach of rich and poor.
Names and residences of persons residing in the city of New York, who have been cured or benefited by Dr. Emanuel's Balsamic Cough and Lung Jelly, when it was prepared in another form.
Mr. Hiram Amers, 113 William-st., N. Y., had for some time, a dreadful pain in his side and chest, with a hacking cough, and shortness or difficulty of breath. He used part of a bottle of Dr. Emanuel's Balsamic Lung and Cough Jelly, which perfectly cured him.
Mrs. Morgan, Front-st., Brooklyn, had a very obstinate cough and cold. She tried every other remedy in vain, and Dr. Emanuel's Balsamic Lung and Cough Jelly entirely cured her.
Reader, reader, let the glad voices and grateful hearts of these respectable citizens of New York, appeal to your hearts and understandings, if you are afflicted with any pulmonary complaint, cough, cold, &c.

Mr. L. W. Conklin, 102 Eldridge-st.
Mr. Alonzo Brown, 72 Reade-st.
Mrs. Morgan, 162 Front-st., Brooklyn.
Orange county, April 19th, 1846.
DR. EMANUEL,
Dear Sir—You may perhaps think my statement almost incredible. My reason for fearing so is the fact of your never recommending your Jelly for the cure of confirmed consumption, but only in its primary or first stages. I have every reason to believe that I was in its last stage; my physician told me so; my friends told me so; as well did my symptoms, for they were truly alarming; and I felt fully convinced, that unless relief was obtained, I must soon be consigned to the narrow confines of the silent grave. But by the timely use of your remedy, I still live, and again enjoy my former good health. I had, indeed, dear sir, all the alarming symptoms you speak of as forming consumption in its worst stage; but by the use of your Jelly, I again say, I am cured.
Yours, dear sir, with great sincerity,
ISAAC J. BRED.

And now, reader, having given you a plain statement, let me conjure you to pause, ere it is too late; try this Balsamic Lung Jelly—try it. I have put its price to you as low as I can afford; if you use it, and succeed in curing yourself, I shall have the gratification of having rescued another from consumption; and I hope, in return, that you will not withhold from me your name, and a statement of your cure.
Dr. Emanuel's Balsamic Lung and Cough Jelly, is sold by the Agent, **R. J. TAYLOR**.
Price fifty cents a bottle, or larger sizes one dollar. Dec. 11.

MY EAU LUSTRAL HAIR RESTORATIVE.
This universally approved and admired article, free from ardent spirits, pungent essential oil, and other destructive materials, cleans the hair expeditiously, renders it beautifully bright, and imparts to it the delicate fragrance of the flowers. Hair washed with this Extract soon becomes pleasingly soft and luxuriant in its growth, and it will positively bring in new hair on bald heads by its use; and hair that has been made harsh, and is turning gray or falling out, by the use of spirit or other improper preparations, will soon be restored to its natural color and brilliancy, by a few applications of the Eau Lustral.
It is a preservative against baldness, and an infallible cure in all affections of the skin on the head, as dandruff, and for preventing the falling off of the hair and turning gray.
Evidence.—Nature is an inexhaustible mine, in which experience and study will always find room to excavate; it is that source alone which produces all that man calls invention, and which he would do better, perhaps, to name adaptation.

Coggeshall & Bliss' Patent Cooking Range.
THE subscribers have just taken out letters patent for a new and beautiful cooking Range, to which they invite the attention of the public.
This Range may be set in the ordinary fire place and by a simple, though effectual apparatus, the throat of the chimney may in an instant of time, be opened or closed, so that the heat in summer and the fumes from cooking at all times may escape through the chimney.
Wood or coal may be used, and the evil of smoking chimneys is completely remedied by its introduction.
This Range is so constructed that it takes up but a small space, and yet it contains all the qualities of those which take up double the amount; and it being constructed as it is, the Boilers are brought in close proximity with the fire, and it consequently boils much sooner, and with a smaller amount of fuel, than the old fashioned Ranges, or cook stoves. It contains five boilers, four of which may be converted into two, by taking out a cross piece, and thus will admit of two large boilers at the same time. It also contains and Oven 12 inches wide by 21 deep, which cannot be surpassed for baking.
The subscribers have one of their Ranges, in operation at their store, where the public are invited to call and examine it, and if they will, they must at once discover its utility. They also keep constantly on hand all kinds of Parlor, Office, and Cook Stoves, Tin Ware, &c., &c.
